

Telehealth Resource Centers

The National Telehealth Webinar Series
Presented by the National Network of Telehealth Resource Centers

PRESENTS:

The Futures of Telehealth: What you should know now

Thursday, June 20, 2013

8:00 AM HST, 10:00 AM AKDT, 11:00 AM PDT, 12:00 PM MDT, 1:00 PM CDT, 2:00 PM EDT

Presented by:

Stuart M. Speedie, PhD, Executive Director, gpTRAC

Telehealth consists of many strands all based on modern telecommunications technologies. Smart phones, tablets, videoconferencing, and new devices of all types support the delivery of health care and encourage behaviors to improve our health. There are a number of different paths that those involved in the field can follow that lead to multiple possible futures. We will discuss some of these possible futures and what they mean for telehealth.

To join this webinar:
